

# Xerox<sup>®</sup> Supplies Your Online Catalog for all Your Printing Needs

# Introduction

#### Xerox® Supplies Product Portfolio: Quality, Reliability, Variety and Performance—

helping you work greener and smarter. Xerox® Supplies is as committed to protecting the environment as we are in offering you the widest portfolio of Digitally Optimized Paper and Specialty Media. Our range of options includes papers that are FSC® Certified and SFI Certified, so you can be sure you're preserving the planet while you're improving your document quality, your output and your bottom line.

Xerox® supplies are engineered to bring out the best in digital printing. Whether you need to create a high-end customer brochure, a captivating proposal or presentation, an eye-catching business card, poster, pamphlet or window decal, you get results with Xerox® Digitally Optimized Paper and Specialty Media. All of our products have been designed, extensively tested and qualified by Xerox engineers to ensure optimum performance and outstanding productivity.

There's never been a better time to take advantage of the explosive growth of digital print. No matter what kind of business you are in, we have innovative, money-making or money-saving solutions that get results:

- Shorter run lengths
- Faster turnaround times
- Personalized content
- Performance guaranteed

# Certification and Sustainability

Starting with the source of the fiber used to make the paper, through its manufacture and use, we strive to minimize environmental impact while meeting your exacting business needs.

In 2000, we adopted an environmental position on sourcing paper. The position states that our goal is to source paper from companies committed to sound environment, health and safety practices and sound environmental management. In support of this position, we phased in a set of requirements from 2003 to 2005 for all supplying mills. These stringent requirements cover all aspects of papermaking, from forest management to production of finished goods.

The requirements are now included in our supplier qualification process, and our existing paper suppliers worldwide must meet these requirements to continue doing business with us. Suppliers must also submit detailed documentation annually, verifying conformance.

#### Key elements required:

- Commitment to compliance with all applicable environment, health and safety regulatory requirements, including forestry codes of practice and regulations governing legal harvesting of wood.
- An effective mill environmental management system and objectives for continual improvement in environmental performance above and beyond regulatory compliance.

#### An effective procurement process that:

- Ensures the exclusion of illegally harvested wood raw materials.
- Ensures the exclusion of wood raw materials derived from forest areas of significant ecological or cultural importance, unless certified to our accepted sustainable forest management standards.
- Encourages all suppliers of wood raw materials to practice sustainable forest management.
- Strictly limits the use of hazardous materials, including exclusion of elemental chlorine, in the processing and content of our papers.

These standards enabled us to gain certification by other outside independent groups to ensure that our papers not only meet our high standards, but meet the requirements of these cross-industry governing bodies.

In 2007, we were one of the first paper providers to be awarded multi-site certification of all of our paper sales and distribution sites across Europe and North America. Certification is the right thing to do. It ensures that our standards are as high as the industry experts. It gives you the extra assurance that our papers meet the standards of international standards groups. Additionally, there is the assurance that from the forest to your hands—the paper has been handled responsibly throughout the Chain of Custody. Forests are managed responsibly: trees are regenerated, wildlife habitats protected, and biodiversity of forestland is respected and maintained. Since only about 7% of the world's forests are certified, the pulp from these forests can be difficult to source. But, we are committed to the assurance that whether the paper is certified, recycled or from non-certified virgin pulp, the highest standards are maintained to protect our natural resources.

# Understanding Paper Certifications

#### **Chain of Custody**

Chain of Custody (CoC) is the path taken by the raw materials harvested from a certified forest all the way through processing, production, distribution and printing until it is a final product to be sold to an end customer.

We are proud to have earned the following CoC certifications:

# Programme for the Endorsement of Forest Certification

The Programme for the Endorsement of Forest Certification (PEFC) Council is an independent, non-profit, non-governmental organization, founded in 1999, which promotes sustainably managed forests through independent third party certification. PEFC provides an assurance mechanism to purchasers of wood and paper products that they are promoting the sustainable management of forests.

PEFC is similar to FSC® in relation to the end product certification, and is growing in popularity across some regions of Western Europe. PEFC offers customers a badge of sustainability as requested by many end users, as proof of corporately responsible purchasing.

#### Forest Stewardship Council™

The Forest Stewardship Council (FSC® Certified) is an international network, which promotes responsible management of the world's forests. The FSC® accredits independent third-party organizations such as certification bodies. These certification bodies certify organizations to the FSC® standards. Its trademark provides international recognition to organizations that support the growth of responsible forest management.

Over the past 12 years, over 157 million hectares in 80 countries have been certified according to FSC® standards, while several thousands of products are produced using FSC® Certified wood and carrying the FSC® trademark. FSC® operates through its network of National Initiatives and is becoming increasingly demanded by customers looking for a sustainable branded paper.

The FSC® trademark can be displayed on products containing a mix of FSC®, recycled and other responsible sources. The FSC® logo identifies products from well managed forests. It is the global benchmark for responsible forest management.

Please look for FSC® Certified products.

# The Sustainable Forestry Initiative

The Sustainable Forestry Initiative® (SFI) program is based on the premise that responsible environmental behavior and sound business decisions can co-exist. SFI program participants practice sustainable forestry on all the lands they manage and they influence millions of additional acres through the training of loggers and foresters in best management practices and landowner outreach programs. This unique commitment to sustainable forestry recognizes that all forest landowners, not just SFI program participants, play a critical role in ensuring the long-term health and sustainability of our forests. The SFI program is overseen by a multistakeholder Board of Directors, which is the sole governing body over the SFI Standard and all aspects of the program, including chain of custody certification and labeling, marketing and promotion.

# Photo Applications Paper

# Xerox® EverFlat Image Solutions Paper®

- Now you can produce distinctive books on heavy coverweight paper that lay and stay flat.
- Now you can design books with expanded layout options for text, graphics and photos—including full crossovers—without image loss in the gutter.
- Books are easy to hold and easy to read. Pages lie flat and won't flip over on their own.
- The perfect solution for photo books, cookbooks, music books, manuals and textbooks.

# Labels

A simple label is often the first impression customers receive. Use our premium white self-adhesive labels and show them quality is an integral part of your company. Special release agents ensure our labels stick to documents, not in copiers,

so they do not contaminate machines with adhesive residue. Available in uncoated, gloss and matte coated finishes to meet all your custom, on-demand labeling needs.

# Digital Color Select Gloss® Labels

High gloss face stock with a bright white finish available in a variety of configurations.

## Reprographic Consumables

## Xerox® Wide Format Supplies (Consumables)

Xerox® toners are image makers. They produce high-quality copies that in turn help create high-quality business images. Xerox® toners are unlike any others because they are specially formulated to work with the unique qualities of Xerox® equipment. Xerox® developers provide crisp, clean copies and optimum machine performance. They also provide an "insurance policy."

## Aqueous Inkjet Display Graphics Media

Presentation Papers

## Matte Presentation Paper 160 g/m<sup>2</sup>

A universally compatible high-white, heavyweight matte presentation paper designed for CAD/GIS and low coverage color graphic applications. Gives good image density and gamut with lower ink limits and therefore excellent ink economy. The heavyweight base gives this paper good stiffness and bulk, and dimensional stability makes this paper suitable for multi-panel display. Dries quickly and is suitable for both dye and pigment inks.

#### Specifications

Weight (g/m²)	Caliper (mic)	Whiteness (CIE)	Opacity
160	198	132	96%

Order #	Wid	th	Leng	gth	m²	
023R02092‡	914 mm	36"	31 m	100 ft	28	

Not recommended for use in the Xerox® 8142/8160. ‡Not available in Canada.

## Aqueous Inkjet Display Graphics Media

Presentation Papers

## Premium Presentation Paper 170 g/m<sup>2</sup>

High-quality, heavyweight poster paper with a smooth, matte-coated surface. For photo-quality, bright colored graphic imaging, this is effectively a no-glare alternative to photo paper. The base of this media provides excellent stiffness and bulk, and full opacity. Instant dry and universally compatible with dye or pigment ink systems.

#### Specifications

## Aqueous Inkjet Display Graphics Media

Banner Media

### Banner Polyester 290 mic

A premium flexible polyester media with the necessary water-resistance, opacity and ability to resist edge curl for indoor and outdoor banner and display systems. Media can be sewn or punched but not welded. Complies with the requirements for classification as M2 flame retardant making this an ideal banner material for fire-sensitive environments. Works well with both dye and pigment inks.

#### Specifications

Weight (g/m²)	Caliper (mic)	Whiteness (CIE)	Opacity

## Equipment Supplies/Consumables

## For the many ways you create documents.

A good working relationship between copying/printing technology and supplies is crucial to consistently producing superior documents. Xerox® Equipment Supplies are unsurpassed in the industry because so much of our research and planning goes into developing toner, developer, cartridges and fuser oils.

# Xerox<sup>®</sup> Equipment Supplies and technology are made for each other. Literally.

Xerox designs a new machine and develops its equipment supplies, simultaneously. Joint development ensures all the different pieces work compatibly with your equipment—and with each other—mechanically, electrically, physically and chemically. No one makes equipment supplies that harmonize better with our technology than we do.

# Xerox passes with flying colors (and our black and white is good, too).

We perform exhaustive testing on equipment supplies to assure reliable, high-quality performance. Over one million copies are produced using our supplies before they pass our stringent qualification process. This painstaking scrutiny ensures that you will see improved productivity, fewer paper jams, and impressive documents with vibrant color and solid, clear text.

## Equipment Supplies/Consumables

### Xerox® Metered (Cost per Copy) Supplies Replenishment Program

To order supplies included in the Tetered/Cost per Copy contract, visit <a href="https://www.xerox.com/meteredsupplies">www.xerox.com/meteredsupplies</a> or call 1-800-599-2198.

#### Which supplies are included?

Monochrome Equipment—Black toner, copy cartridges and fuser oil Color Equipment—Color toner(s)

#### How are these supplies obtained?

Monochrome Equipment—Supplies are ordered automatically by the Xerox Automatic Replenishment System

Color Equipment—Supplies are ordered by the customer by contacting the Metered Supplies Customer Support Center. Some of the newer color equipment models can be automatically replenished. Upon calling for supplies, customers with newer, enabled equipment will be notified and automatic replenishment will be enabled at that time.

#### When should automatic shipments be expected?

Once a month, the automatic replenishment system will review each machine on automatic replenishment to calculate the need for supplies using meter reads, supply consumption data sent by the machine and past shipments. If a shipment is needed the system will automatically ship it.

## When and how to contact the metered supplies customer support center

When/Why

- To order supplies covered under metered/CPC contracts that are not automatically replenished
- To order additional supplies covered under metered/CPC contracts that are automatically replenished
- To fine tune the amount of supplies being shipped by the Automatic Replenishment System
- To return excess supplies received as part of the metered/CPC contract

You will need

- The serial number(s) of the equipment receiving the supplies
- A count of supplies currently on hand

How to Register/Activate Online Ordering

Visit <u>www.xerox.com/meteredsupplies</u> to register and activate your account

- Enter a valid email address associated with your Metered Supplies account
- Enter a valid serial number that is currently eligible for Metered Supplies
- Please not that all entries will be verified with our records

Once your account is activated you will be able to:

- Order metered supplies
- View your order history

Questions?

Contact the Metered Supplies Customer Support Center at  $1-800-599-2198 \ / \ 7:00 \ am \ to \ 6:00 \ pm \ CST$ 

Other information about the program

- A metered/CPC contract provides the use of these supplies on a cost per copy basis. The actual supply items remain the property of Xerox until consumed. As such, inventory quantities kept at a customer location are at the discretion of Xerox. They may not be sold or used in other equipment.
- A metered /CPC contract requires meter reads be furnished periodically for billing purposes, but additional meter reads may be requested to validate the quantity of supplies requested.
- A metered/CPC contract requires providing periodic inventory counts of supplies. These counts may be requested when ordering supplies or via the periodic Xerox Inventory Audit.
- A metered/CPC contract requires the return of unused supplies covered under the contract at the time of equipment removal.
- A metered/CPC contract specifies that Xerox may invoice additional charges for excessive supply usage.

Contact Service North American Customer Support/Welcome Center at 1-800-822-2979 for

- Equipment service
- Defective supplies
- Orders for service modules such as drums and fuser modules

Global Document Outsourcing/Managed Services for Customers—please refer to your contract for the supplies ordering process.

## One, two, three ways to recycle with the Xerox® Green World Alliance®.

We support waste-free practices under the hierarchy of "reduce, reuse, recycle." We design product packaging and supplies that make efficient use of resources, reuse materials where feasible and recycle what can't be reused. Our supplies recycling programs have kept millions of pounds of waste out of landfills. The Xerox Green World Alliance makes returning supplies a breeze.

#### 1. Single (individual) returns

- On our web site, select an item by model or reorder number.
- Items are shipped back.
- Xerox pays return shipping for items on our Take Back list and all recycling costs.

#### 2. Eco Box returns for over four items

- Order a kit of three boxes and bags—ships at no charge to you.
- Fill box with used supplies, seal and ship via UPS.
- Xerox pays for return shipping and all recycling costs.

#### 3. Pallet returns for over 30 items

- Consolidate items on your own pallet.
- Complete bill of lading and schedule pickup with Ryder Logistics.
- Xerox pays for return shipping and all recycling costs.

## Supplies Return Policy Overview

- Returned supplies must be in full, unopened cartons and in good resalable condition, except for damaged or defective returns.
- If Xerox cannot validate that the customer purchased their supplies directly from Xerox, the Customer must be able provide proof of purchase (Xerox shipping document or Xerox invoice). If not purchased directly from Xerox, return inquiries should be directed to the place of purchase.
- A 20% restocking fee applies due to customer errors and contract cancellations. Cost Per Copy supplies are not subject to this charge.
- Obsolete/Discontinued supply products are not accepted for physical return, but credit may be issued for eligible returns.

#### Supply Returns will be accepted up to 60 days from Supply Invoice for the following scenarios:

Xerox Error	Supply returns resulting from a Xerox error (shipped wrong product, shipped inaccurate quantity, etc.)
Non-Xerox Error (Customer Request)	Supply returns resulting from non-Xerox errors (ordered wrong products, ordered wrong quantity)
Damaged Supplies	Supply product materials that are damaged upon customer receipt (product has not been inserted in the machine).
Defective Supplies	Supply product materials or workmanship that Xerox identifies as defective will be accepted for replacement/credit at any time.

#### Supply Returns will be accepted up to 60 days from date of specific machine transaction for the following scenarios:

Equipment Exchange/Upgrade	Supply products purchased within the past 12 months that are no longer compatible as a result of a customer trade to other Xerox equipment. Supply returns will be accepted up to 60 days from date of equipment exchange/upgrade.			
Equipment Outright Rental/ Cancellation	Supply products purchased within the past 12 months that are no longer compatible as a result of an outright rental equipment cancel where the equipment has been returned to Xerox			
Equipment Term Lease Expiration	Supply products purchased within the past 12 months that are no longer compatible as a result of an outright rental equipment term lease expiration where the equipment has been returned to Xerox			
Equipment Sale Return	Supply products purchased within the past 12 months that become incompatible, as the result of an equipment sale return.			
Cost Per Copy to Sold Price Plan Conversion	Supply products provided under a cost per copy plan must be returned back to Xerox when converting to a toner out or sold price plan. Customer is not eligible for credit since these supplies are Xerox property. Xerox reserves the right to invoice customer for cost per copy supplies that are not returned within 60 days of converting from Cost per Copy to Sold Price Plan.			

For further information, please contact Xerox billing at the phone number listed on your invoice.

### Xerox® Replacement Cartridges for Laser Printers and Premium Laser Paper A Perfect Combination

Create a quality pairing for your laser printer with Xerox® cartridges and Xerox® Premium Laser paper. Before we put our name on our HP, Lexmark and Brother replacement cartridges, we ensure they measure up to the Original Equipment Manufacturer standards. And, with industry expertise behind all our products, both our replacement cartridges and Xerox® Premium Laser paper meet and exceed Xerox standards.

For savings, value, performance and superb quality products for all your laser printers, ask for Xerox® replacement cartridges and Xerox® Premium Laser paper.

## Xerox<sup>®</sup> MySupplies Dynamic. Interactive. Efficient.

Xerox e-Business takes online engagement with customers further by providing fast, simple ways for you to purchase Xerox® supplies. MySupplies is just one example of the easy-to-use services designed to help you save time, simplify business and improve productivity.

As a MySupplies user, you can purchase Xerox® supply products online at your company's unique negotiated price plan. You can also view shipping and billing information and use our quick reorder feature to make purchases based on your company's buying history. MySupplies provides a complete Xerox® catalog that is always up to date and accessible 24 hours a day, seven days a week. To make buying decisions even easier, MySupplies also enables you to:

- Search to find the correct supplies for your Xerox® equipment
- Use the Paper Resource Centre to find tips and templates to enhance productivity through the use of Xerox® supplies
- Create and save an online "My Favorites" shopping list of your most frequently ordered supply products to simplify reorders

Along with the convenience of ordering online, you can rest assured that all transactions and information are encrypted to protect your privacy.

For more information, contact your Xerox Supplies Representative, an authorized Xerox Reseller, call toll free or visit us at www.xerox.com
